

Angina P biography

Vienna-based producer Angina P takes her name from the throat inflammation that plagued her throughout most of her childhood and teenage years.

Shaping her into the person she is today, she takes powerful layers and sharp contrasts to create compositions that are abrasive, complex, and emotionally-charged. While persistently raw and moody, the music maintains a sense of pureness and digs deep into her psyche.

With "8 Rooms", Angina P takes elements of ambient, drum & bass, IDM, breakbeat, and experimental, to create a soundtrack that is both unique and intense. As the 2nd release on Notochord Recordings, the CD presents 5 new Angina P tracks along with 3 exclusive remixes by Semiomime (aka DJ Hidden), Edgy (aka Stephen James Knight) and Larvae.

Notochord is very proud to include Angina P on its growing list of international artists. Her strong productions have earned her much respect worldwide and the demand for her music continues to rise rapidly.

Angina P has previously appeared on a number of compilation CDs and on-line releases. Her songs on mp3.com have reached number 1 in their respective genres and have over 370,000 downloads. She has been aired on many radio stations and syndicated shows throughout the world. Additionally, her cinematic style has earned her appearances in both the film and video game industries. Her credits include the track "Hidden Assault" which has been featured in the DVD version of the Warner Bros' film, "Taking Lives" (starring Angelina Jolie, Kiefer Sutherland and Ethan Hawke), and the History Channel's show, "Air Stealth, Sea Stealth, Land Stealth". She has also composed the soundtrack and sound effects for the upcoming video game, "SunAge", scheduled for release by Lighthouse Interactive in late 2006.

Apart from writing and producing her own tracks, Angina P also performs live and remixes tracks for fellow musicians. A busy up-and-comer, make sure to keep a close eye on her for the future.
